OZONATED OLIVE OIL

the healing gel that makes you well

BEFORE

AFTER *Diabetic patient*

Ozonated Olive oil is made by bubbling highly concentrated ozone gas through pure Olive oil. This process takes several days of continues gas flow. The result is an effective strength oil that has the distinctive odor of ozone. Topical use of this oil allows ozone to enter the tissue and heal cuts, wounds, burns, ulcers, lesions and infections. In massage, ozone penetrates the skin and oxidizes lactic acid and other toxins that may be present, alleviating skin problems soreness and pain.

OZONATED OLIVE OIL HELPS FOR:

- Acne
